BUTT'S HEAD.—The report of the Cattle market this week exhibits a very remarkable feature. With a full supply of meats of all sorts of butchers' animals, the price of all has advanced. The increase of the number of beef cattle over the previous week was 1,300 head, and the increase of price equal to half a cent a pound; all the first-class stock selling freely at 2 1/2 cts. per lb. The increase in the number of sheep over the previous week is about 2,200, and the increase of price equal to half a cent, not a pound. These increases

COLORED EMIGRATION TO HAYTI.—The British ship *Truxillo*, cleared yesterday evening with eighty colored emigrants for Hayti. This is the tenth colony sent out by the Haytian Bureau since January last, among the emigrants by the *Truxillo* are natives of

New-York, Virginia, Pennsylvania, North and South Carolina, Florida, Kentucky, Maryland, Ohio, Alabama, Georgia, Massachusetts, and Chili. Of the eighty-nine only one could not read or write—all the rest had a fair common-school education. They all intend to cultivate cotton in Hayti. Mr. Redpath, the General Agent of the Haytian Government, announces that the next emigrant vessel will be the Isabella

He will carry over a hundred passengers. The Josephine will sail on the 1st of October from New-York with eighty passengers. Another vessel will be chartered to sail from this port at the same date. All of them will sail under the British flag. Three colonies—one of ninety from Rhode Island, one of one hundred and twenty from Pennsylvania, and one of one hundred and four from Buxton, Canada West, will sail by the

It is expected that five thousand will sail from Canada West alone during the coming Autumn and Winter. The encouraging accounts sent by those who have already emigrated have created quite a fever among the colored people in different parts of the country. Great care is taken to select those only who have established a character for industry and integrity, and none but those who are intended to be farmers are forwarded.

cept those who intend to be farmers are to be favored. Arrangements have also been made by which the railroad fares of agricultural emigrants will be advanced on places in the interior. The movement is assuming large proportions. It has an organ—*The Pine and Palm*—published in Boston, where the Central Bureau is established, and to which all letters of inquiry should be addressed. This office will be removed to New-York on the 1st of October. The emigrants who

all this morning are of the very best class of colored people. Cotton raised by emigrants is already beginning to be exported from St. Mark, where the American colonies are located.

THE JEWISH FEAST OF TRUMPETS.—The Feast of trumpets; or, according to the Hebrew, *Rosh Hashanah*, commenced last evening. The celebration of this feast is deemed of the most sacred character.

and obtains its sanction from one of those solemn announcements, "And the Lord spake unto Moses, saying," which always commands the most rigid observance and obedience on the part of Israelites. The services will continue throughout Thursday and Friday, during which time all the synagogues in the city will be open.

The medal has on the reverse face a spirited head of Dr. Hansen, and on the obverse the full-length portraits of the Faculty of the College, gathered as if for clinical instruction at the bedside of a patient. Though minute, the likenesses of the professors are distinct and striking. The medal does great credit to the artist.

equal to half a cent more a pound. There is an increase of one-fourth to one-half a cent a pound on the live weight of hogs, but here it may be owing to a rise of 1,200 in the number. In veal calves there is an increase of numbers and price. All of this movement can only be accounted for upon the supposition that there is a much better state of feeling among buyers and sellers, and no pressure on butchers' account in the money market.
